CASE HISTORY:- Housing Development, Priors Green, Essex.

CONTRACTOR	J.Breheny Contractors Ltd.
GABION CONTRACTOR	Smallwood Gabion Construction Ltd.
DESIGN & SUPPLY	Hy-Ten Gabion Solutions.

This large housing development required large balancing ponds to accomodate excess surface water in periods of heavy rainfall.

The retaining walls for these ponds where designed and manufactured by Hy-Ten Gabion Solutions using a mix of standard gabions made from 3mm and 4mm thick 76.2mm x 76.2mm welded mesh, triple life coated.

Some of the units are trapezoidal in shape to give a more aesthetically pleasing shape to the walls.

This substantial project of approximately 1000 cubic metres of gabions was filled with granite sets which where hand placed on the visible faces.

If you would like Hy-Ten to design and supply gabions and land reinforcement products for you, please contact us on 01902 712200.
