CASE HISTORY :- Begbroke Science Park

CONTRACTOR	Smallwood Gabion Construction Ltd
CONSTRUCTION	Autumn 2006
GABION WALL DESIGN	HY-TEN Gabion Solutions

Hy-Ten Gabion Solutions recently designed and supplied gabions for this new development in Oxfordshire. The gabions were used to create seating and to raise the landscape in the grounds of the science park.

HY-TEN manufactured the gabions from 76.2mm x 76.2mm x 4mm thick welded mesh with a triple life coating (95% zinc 5% Aluminium) and helical binders for all joints. The gabions were supplied in unit sizes of 2m x 0.7m x 0.7m and a limestone fill was used.

HY-TEN also designed and supplied the clamp bar fixings for the wooden element of the seating. The gabions were installed by Smallwood Gabion Construction Ltd on behalf of J P Dunn

If you would like Hy-Ten to design and supply gabions and land reinforcement products for you, please contact us on 01902 712200.
