CONSTRUCTION	2003
GABION SUPPLY	HY-TEN GABION SOLUTIONS

Reinstatement to an existing water course on the golf course was carried out with 300mm deep gabion mattress channel lining. The gabions supplied were Green PVC-Zinc mesh 76.2mm x76.2mm x 2.7mm filled on site with rock fill to the bed of the water course and for the banks a soil/rockfill mix was used with the top face lined with a bio-degradeable matting to help promote the establishment of natural vegetation.

This photograph was taken a few months after completion and the vegetation is starting to become establish.

If you would like Hy-Ten to design and supply gabions and land reinforcement products for you, please contact us on 01902 712200.
