CASE HISTORY:- Northala Fields, Northolt.

CONTRACTOR	C J Pryor Ltd
GABION CONTRACTOR	Smallwood Gabion Construction Ltd / C J Pryor Ltd
DESIGN & SUPPLY	Hy-Ten Gabion Solutions.

This new and innovative park opened in 2008. Rubble and spoil material from the original Wembley Stadium and the new White City shopping centre was used in a varied series of applications to create an unique public space.

Gabion walls feature extensively at the sides of footpaths and are used to form spiral features up the conical mounds along the perimeter adjacent to the A40.

The Hy-Ten gabions supplied where manufactured from 76.2mm x 76.2mm x 3mm welded mesh with 5mm mesh panels on exposed faces. Helical binders were used for the vertical joints and crushed concrete was used for the gabion fill.

If you would like Hy-Ten to design and supply gabions and land reinforcement products for you, please contact Steve Lisle or Greer Charlton on **01902 712200**.
